

XGATE USER GUIDE

The easy to use app designed to provide a quicker, more productive terminal experience.

CSX INTERMODAL TERMINALS, INC.

2017

WELCOME TO XGATE

XGate is an innovative gate solution creating efficient terminal flow through expedited in-gate, out-gate, and on-terminal processing at CSX intermodal terminals.

WHAT'S INSIDE?

- 1** Contents
- 2-3** Benefits of XGate
- 4-7** Frequently Asked Questions (FAQ)
- 8-9** How to Register
- 10-11** Plan Future Moves (In-Gate)
- 12-13** Plan Future Moves (Out-Gate)
- 14-15** Go to Terminal
- 16-17** Determine at Terminal
- 18-19** On Terminal

THE BENEFITS OF XGATE

USE DEDICATED LANES

XGate users have dedicated lanes separate from non-app users

KEEP YOUR ENGINE RUNNING

App users may keep engines running in dedicated lanes

GET IMPORTANT NOTIFICATIONS

Receive push notifications about equipment status (availability, billing status, etc.)

GO PAPERLESS

No more paper J1's. They are available electronically and on ShipCSX.com

SAVE TIME

Billing and pick-up numbers pre-validated. Spend less time on terminal waiting for billing or pick-up number corrections

WARNING

Do not enter a dedicated XGate lane without the XGate mobile app and a QR code to scan. It will cause significant mission delay!

ShipCSX

DOWNLOAD THE APP

Search the app store for 'ShipCSX' on your Android or Apple device. For assistance, please see a member of the Terminal Management team.

FREQUENTLY ASKED QUESTIONS

QUESTION. What is XGate?

ANSWER. XGate is a streamlined gate solution allowing draymen to enter and exit CSX Intermodal Terminals, Inc. facilities safely and efficiently.

QUESTION. How do I get XGate?

ANSWER. Download the ShipCSX app from Google Play or the App Store.

QUESTION. What are my options if I don't have a smartphone?

ANSWER. Manual processing is available.

QUESTION. Can I use the XGate mobile app at terminals that do not have portals?

ANSWER. Yes, you are able to use the XGate mobile app at terminals that do not have portals.

QUESTION. What do I do if I need help downloading the app or registering for XGate?

ANSWER. Please see a member of the Terminal Management team.

QUESTION. Can I use the mobile app while in motion?

ANSWER. No, for safety reasons the mobile app screen will lock when it detects motion. You may only update the mobile app while your truck is parked in a safe location.

QUESTION. Does the mobile app track my location?

ANSWER. No, GPS tracking is not used to determine location. GPS is used for motion sensing only.

QUESTION. Does the mobile app require location services to be turned on?

ANSWER. Yes, the app must detect motion to enforce terminal safety rules.

QUESTION. What if I use the XGate only lane and I require manual processing?

ANSWER. Manual intervention is required, significantly delaying the processing of your transaction.

QUESTION. How will I be notified if my container billing status has been updated?

ANSWER. Via the mobile app through your device's notification system.

QUESTION. How do I notate damages or defects on the equipment?

ANSWER. Damage can be entered within the XGate app. Roadability damage should be repaired or terminal personnel contacted for assistance.

QUESTION. Will I get an image of the equipment I'm out-gating?

ANSWER. Out-gate images are not available. It is the drayman's responsibility to inspect and notate damage and defects on equipment prior to out-gate.

QUESTION. Will I still get a paper ticket for my in-/out-gate transactions?

ANSWER. No, the mobile device with the QR code replaces paper tickets. J1's are available electronically and at ShipCSX.com.

QUESTION. After in-gating without a pick-up mission, can I add a pick-up while on the terminal?

ANSWER. Yes, the 'Determine at Terminal' feature in the application allows you to decide your pick after arrival at the terminal.

QUESTION. Can I change my pick-up mission after I input my loaded equipment?

ANSWER. No, you must proceed to Driver's Assistance for processing. However, pick-up mission updates can be made to pool equipment.

QUESTION. Does CSX Intermodal Terminals, Inc. take a picture of my seal number?

ANSWER. No, it is the drayman's responsibility to accurately record the seal number of the containers in the app.

QUESTION. If I drive to several terminals daily, is there a way to save those terminals in the app?

ANSWER. Yes, the app has the ability to save up to three favorite terminals.

QUESTION. How do I activate a saved pre-visit mission to enter the terminal?

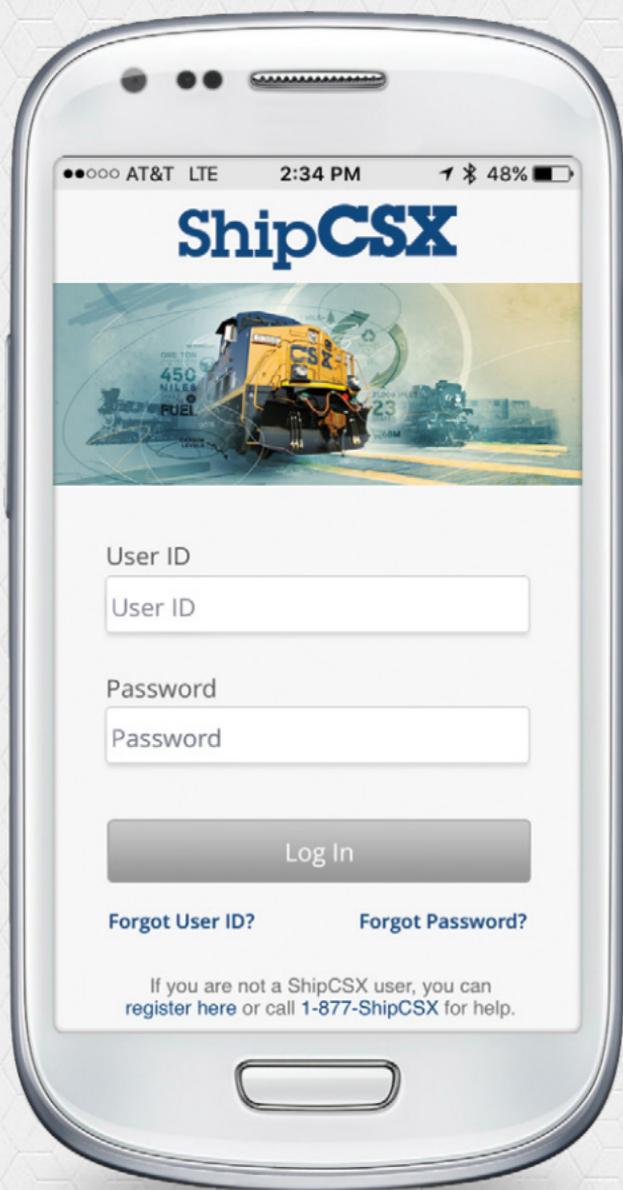

ANSWER. Select 'Go to Terminal' in the app, select from existing saved visits, and choose the equipment visit you would like to activate.

(see capabilities and limitations on the next page)

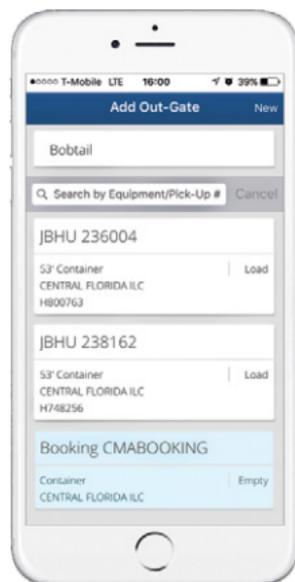

4

5

6

CAPABILITIES

- Add loaded or empty equipment
- Swap empty pool equipment

LIMITATIONS

- Cannot update loaded equipment once submit is selected
- If the equipment being out-gated doesn't match what's been submitted, go to Driver's Assistance

ON TERMINAL

MID-MISSION STEPS

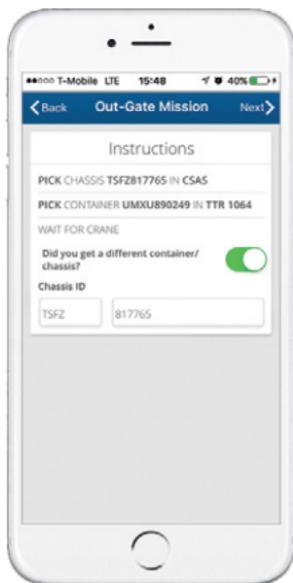

1

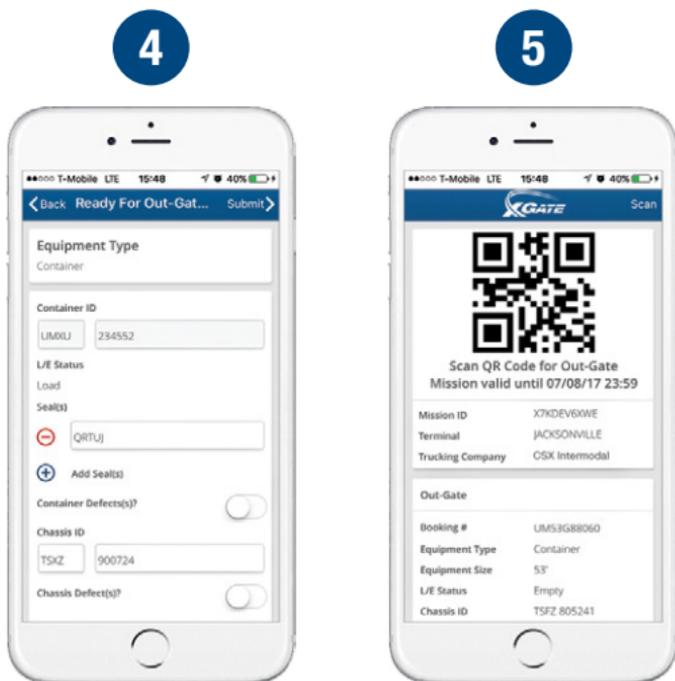

2

3

1. After In-gate, follow In-Gate Mission instructions
2. When complete, follow Out-Gate Mission instructions
3. If you get different equipment than assigned, you must update it prior to out-gating by selecting the option next to **“Did you get a different container/chassis?”**

4. Review your out-gate equipment and **Enter Seal Number**, if applicable
5. Out-gate QR code created.

CAPABILITIES

Any equipment can be swapped as long as you have a valid Pick-Up number or Empty Booking number.
